

WhitnerWoodworks, based in Leander, Texas designs and crafts handmade wood items with attention, care, and detail. Initially, creating for family and friends, I wanted to build heirlooms for everyone who loves and enjoys unique and custom crafted wood furniture and art. Each piece starts with a choice of quality wood and a detailed idea to create something new and wonderful for your family and friends to enjoy for a lifetime.

FINE TEXAN HANDCRAFTED WOODWORK

Building things that last.
Beautiful things that mean
something. Things you would
pass down to your kids.
My vision is to build and sell
quality, handcrafted, custom
wooden heirlooms that are
artistic as well as functional.

WHITNER WOODWORKS

There is something warm and inviting about handling a product made of wood. Whether you're sitting in it, writing with it, or invoking a sound from it, wood, in all its natural wonder and beauty, is amazing!
